Sunbeam's Safety Precautions

SAFETY PRECAUTIONS FOR YOUR SUNBEAM FOOD PROCESSOR.

- Always use extreme care when handling processing blades and cutting discs. These are extremely sharp and may cause injury if handled incorrectly. Always store processing blades and cutting discs in their respective covers or processing containers.
- Unplug from power outlet before cleaning.
- Switch off the appliance and disconnect from supply before changing accessories or approaching parts that move in use.
- Always fit the safety cover before using the food processor.
- Do not put hot liquids into the food processor bowl or blender jug. Cool to room temperature before processing.
- Avoid contacting moving parts at all times.
- Place the processor bowl onto the base of the processor before fitting any attachments.
- All blades and attachments should be removed with care before cleaning.
- Do not over fill the processor.
- Always remove the blade before emptying the processor bowl of its contents.
- When mixing a heavy load, ie. a '0.5kg dough' do not operate food processor for more than 30 seconds at a time. This does not apply for any of the recipes detailed in this booklet.

Sunbeam is very safety conscious whan dasigning and manufacturing consumer products, but it is assential that tha product user also exarcisa care whan using an alactrical appliance. Listad balow are precautions which are assantial for tha safa usa of an alactrical appliance:

- Read carefully and save all the instructions provided with an appliance.
- Always turn the power off at the power outlet before you insert or remove a plug. Remove by grasping the plug - do not pull on the cord.
- Turn the power off and remove the plug when the appliance is not in use and before cleaning.
- Do not use your appliance with an extension cord unless this cord has been checked and tested by a qualified technician or service person.
- Always use your appliance from a power outlet of the voltage (A.C. only) marked on the appliance.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- The temperature of accessible surfaces may be high when the appliance is operating.
- Never leave an appliance unattended while in use.
- Do not use an appliance for any purpose other than its intended use.
- Do not place an appliance on or near a hot gas flame, electric element or on a heated oven.
- Do not place on top of any other appliance.
- Do not let the power cord of an appliance hang over the edge of a table or bench top or touch any hot surface.
- Do not operate any electrical appliance with a damaged cord or after the appliance has been damaged in any manner. If damage is suspected, return the appliance to the nearest Sunbeam Appointed Service Centre for examination, repair or adjustment.
- For additional protection, Sunbeam recommend the use of a residual current device (RCD) with a tripping current not exceeding 30mA in the electrical circuit supplying power to your appliances.
- Do not immerse the appliance in water or any other liquid unless recommended.
- Appliances are not intended to be operated by means of an external timer or separate remote control system.
- This appliance is intended to be used in household and similar applications such as: staff kitchen areas in shops, offices and other working environments; farm houses; by clients in hotels, motels and other residential type environments; bed and breakfast type environments.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

If you have any concerns regarding the performance and use of your appliance, please visit the Sunbeam Website or contact Sunbeam Consumer Care - details are on the back page. Ensure the above safety precautions are understood.

1.2 SAFETY WARNING

IMPORTANT

【ALWAYS READ THE USER MANUAL BEFORE OPERATION. 】
【PLEASE CONFIRM THAT THE POWER SUPPLY STATED ON THE PRODUCT IS THE SAME AS THE MAINS POWER SUPPLY IN YOUR AREA.】

- This product must be installed by a qualified professional.
- Always operate the equipment as described in the user manual.
- A minimum distance of 0.5m must be maintained between the equipment and combustible surface.
- The product must always be placed in a well ventilated area.
- Always make sure that the equipment is installed securely.
- DO NOT stand close to the equipment and stare directly into the LED light source.
- Always disconnect the power supply before attempting and maintenance.
- Always make sure that the supporting structure is solid and can support the combined weight of the products.
- The earth wire must always be connected to the ground.
- Do not touch the power cables if your hands are wet.

ATTENTION

- This product left the place of manufacture in perfect condition. In order to maintain this condition and for safe operation, the user must always follow the instructions and safety warnings described in this user manual.
- Avoid shaking or strong impacts to any part of the equipment.
- Make sure that all parts of the equipment are kept clean and free of dust.
- Always make sure that the power connections are connected correct and secure.
- If there is any malfunction of the equipment, contact your distributor immediately.
- When transferring the product, it is advisable to use the original packaging in which the product left the factory.
- Shields, lenses or ultraviolet screens shall be changed if they have become damaged to such an extent that their effectiveness is impaired.
- The lamp (LED) shall be changed if it has become damaged or thermally deformed.

8. Enter an address

NOTE: There is no need to enter a starting point. CoPilot uses GPS positioning to determine your location automatically.

1. In the *Welcome* screen, tap **Going To**.
2. In the *Going To* screen, tap **Add Stop**.
3. In the *Select Stop* screen, tap **Address**.
4. Using the keyboard, enter a ZIP Code and tap **Next**, or start typing the name of a state — as you type, the scroll list will move to that state. Tap it on the list, then tap **Next**.
5. Type a city name or pick one from the list and tap **Next**.
6. Enter a house number if you like (it's optional), then enter a street name. As you type, database matches will appear below. If no exact match is found, highlight one of the possible matches and tap **Next**.

Step 1 Step 2

Step 3 Step 4

Step 5 Step 6

7. If an exact database match was not found, you'll see the available address options. Select a **Nearby Address**, a **Cross Street**, or one of several **Streets in Nearby Cities**. Tap your choice, then tap **Next**.
8. *(Optional)* Enter a name for the place you entered, then tap **Finish**.
9. You will be taken back to the *Going To* screen, where you can either add another stop or tap **Start Driving** to receive guidance to the destination you entered.

Step 7 Step 8

Step 9

9. Start driving!

Start driving! A text-only Driver Safety Screen will replace the Map Screen when your road speed exceeds 10 m.p.h. **Tap the top or bottom of either screen to see the toolbar and menus.**

System Features

Your computer features:

Performance

- AMD Athlon™ XP CPU
- System Memory DDR 266/333/400, 2 DIMM Slots, expandable to 2GB
- Power management function
- 3.5 inch floppy drive
- CD-ROM, DVD-ROM, CD-RW (52X/24X), DVD/CD-RW combo or DVD writer
- High-capacity, Enhanced-IDE drive
- Support USB 2.0 high performance peripherals

Multimedia

- 3D quality audio system via onboard audio controller
- Audio-in/Line-in, Audio-out/Line-out, Headphone out and external Microphone in jacks

Note: the system has two Microphone-in Jacks (front and rear) However, you can not use both of them at the same time. By default, you system enables your microphone-in jack in front and disables the one at the back.

Connectivity

- Two PS/2 ports for keyboard and mouse
- One S-video out port
- One Parallel port
- One VGA port
- Six USB 2.0 ports (two on the front, four on the rear panel)
- High speed V.92, 56K fax/Data modem (optional)
- 10 Base-T/100 Base-TX Ethernet Network

Downloaded from www.Manualslib.com manuals search engine

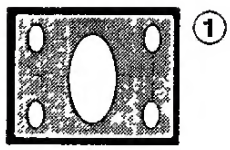
The stored picture and sound values can also be recalled by pressing **PP**.

- Press MENU.
- ▹ **VOLUME** appears, adjust the volume by pressing — or +.
  If you want to store this setting press the two buttons ◇ and ◇ simultaneously.

- Press MENU again.
- ▹ **BRIGHTNESS** appears, adjust the brigbtness by pressing — or +.
  If you want to store this setting press the two buttons ◇ and ◇ simultaneously.

- Press MENU again.
- ▹ **CONTRAST** appears, adjust the contrast by pressing — or +.
  If you want to store this setting press the two buttons ◇ and ◇ simultaneously.

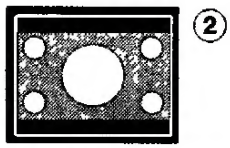
- Press MENU again.
- ▹ **SHARPNESS** appears, adjust the sharpness by pressing — or +.
  If you want to store this setting press the two buttons ◇ and ◇ simultaneously.



- Press MENU again.
- ▹ **COLOUR** appears, adjust the colour by pressing — or +.
  If you want to store this setting press the two buttons ◇ and ◇ simultaneously.

- Press MENU again.

(Tbe following function is only present on certain TV models).



- ▹ **SCREENFORMAT** appears, adjust the screenformat by pressing — or +.

This symbol on an RJ-45 receptacle indicates a network interface connection.

WARNING: To reduce the risk of electric shock, fire, or damage to the equipment, do not plug telephone or telecommunications connectors into this receptacle.

This symbol indicates the presence of a hot surface or hot component. If this surface is contacted, the potential for injury exists.

WARNING: To reduce the risk of injury from a hot component, allow the surface to cool before touching it.

These symbols, on power supplies or systems, indicate the equipment is supplied by multiple sources of power.

WARNING: To reduce the risk of injury from electric shock, remove all power cords to completely disconnect power from the system.

This symbol indicates that the component exceeds the recommended weight for one individual to handle safely.

Weight in kg
Weight in lb

WARNING: To reduce the risk of personal injury or damage to the equipment, observe local occupational health and safety requirements and guidelines for manual material handling.

WHEN THE "OVER LEVEL" INDICATOR LIGHTS UP

When input analog signals from the connected equipment are too high to accept, the **OVER LEVEL** indicator lights up. In this case, adjust the input level so that the indicator disappears.

To lower the sound level of the connected source
When the analog sound level of the connected source is higher than that of the FM and AM functions, adjust it as follows.

1 Select the function to be adjusted.
Turn FUNCTION and play the source.

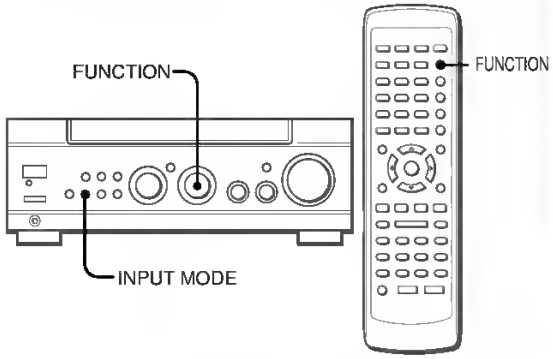
2 Press TUNING ∨ repeatedly.
The level is decreased as follows.

0 dB → –6 dB → –12 dB

To restore the previous level, press TUNING ∧ repeatedly.

- When the analog output of the CD player or DVD player is 2 Vrms, set the level to –6 dB.

RECORDING AN AUDIO SOURCE



1 Select the program source to be recorded.
Turn FUNCTION (or press FUNCTION repeatedly).

2 Set the tape deck or MD recorder to recording mode.

3 Start the selected program source.

NOTE

- Any sound control system has no effect on recording (see page 9).
- Input sound through the DIGITAL IN terminals cannot be recorded. When recording the sound from the DVD, CD, MD or LD player, connect the analog AUDIO OUT terminals of the player to the corresponding AUDIO IN terminals of the receiver. The sound will be recorded in 2 ch stereo.
- Input sound from the tape deck connected to the TAPE IN terminals cannot be recorded

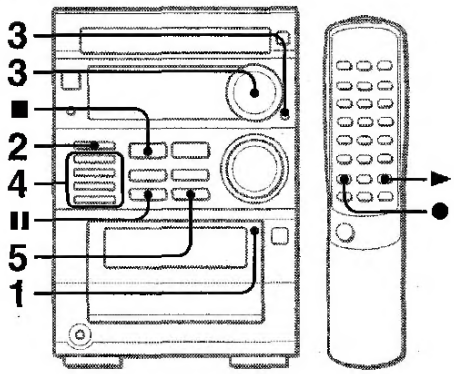
BASIC RECORDING

This section explains how to record from the tuner, CD player, MD recorder or external equipment.

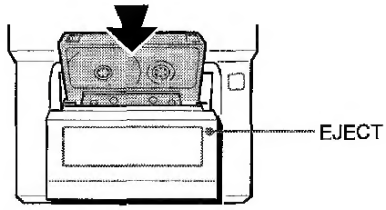
Note

When an MD recorder or other optional equipment is connected to this unit, you cen elso record from an MD or the connected equipment.
For how to connect an MD recorder and other optional equipment, see page 17.



Preparation
- Set the tape to the point where recording will start.
- Use Type I (normal) and Type II (high/CrO_2) tapes for recording.

***1* Insert the tape to be recorded on into the deck.**
Insert the tape with the side to be recorded on first facing out from the unit and the exposed side down.



***2* Press the TAPE/REV MODE button to select the reverse mode.**
To record on one side only, select ⇄.
To record on both sides, select ⇄ or (⇄).

***3* Press the MODE button repeatedly until "DOLBY" appears on the display. Then, turn the MULTI JOG dial right or left to turn Dolby NR on or off within 10 seconds.**
To record with DOLBY NR, turn the dial so that "DOLBY ON" is displayed. (The DD NR indication elso turns on.)
To record without DOLBY NR, turn the dial so that "DOLBY oFF" is displayed.

***4* Press one of the function buttons and prepare the source to be recorded.**
To record from a CD, press the CD button and load the disc.
To record from a radio broadcast, press the TUNER/BAND button and tune in to a station.
To record from an MD, press the MD button and loed an MD.
To record from the connected source, press the VIDEO/AUX button and prepare to play.

***5* Press the ● button to start recording.**
When the selected function Is CD, playback and recording start simultaneously.
When the selected function is MD or VIDEO/AUX, start playback.

To stop recording, press the ■ button.
To pause recording, press the II button. (Applicable when the source is TUNER, MD, VIDEO/AUX.) To resume recording, press ageln.

To start recording with the remote control
First press the ● button, end then press the ► button within 2 seconds.

INSERTING BLANK SPACES

Insertion of 4-second blank spaces enables activation of the Music Sensor function. (Applicable when the source is TUNER, MD, or VIDEO/AUX.)

1 **Press the ● button during recording or while in recording pause mode.**
The ● button flashes for 4 seconds and the tape runs without recording. After 4 seconds, the deck enters the recording pause mode.
2 **Press the II button to resume recording.**

To insert a blank apace of less than 4 sseonds, press the ● button ageln while the button is flashing.
To insert blank spaces of more than 4 seconds, after the deck enters recording pause mode, press the ● button again. Each time the button is pressed, a 4-second blank space is added.

To erase a recording
1 Insert the tape to be erased into the deck.
2 Set the tape to the point where the erasure is to be started.
3 Press the VIDEO/AUX button.
If an optional equipment is connected to the VIDEO/AUX jecks, turn it off.
4 Press the ● button to start the erasure.

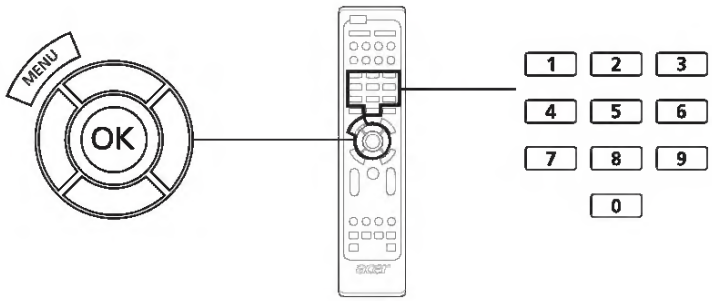
Advanced features

Parental Control

Locking TV content

Parental control is a handy feature that can block all TV sources.

Parental control allows you to enter a password and effectively stop anyone without the password from watching TV.

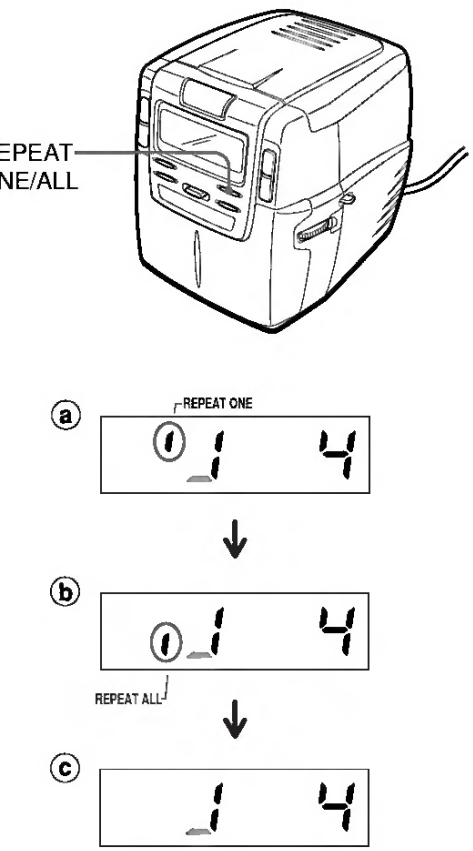


To enable this feature:

Setting a password			
1			Press the **MENU** key on the remote control to bring up the OSD.
2			Use the **directional keys** to navigate to the Parental Contol menu. Then select **Password**. (see note)
3			Enter a four-digit password. Type it again and press **OK** to reconfirm.
4			Press **MENU** to exit.

The default PIN for this TV is "0000." First enter "0000" when you want to change the PIN. If you forget your PIN, please enter 6163 to reset.

Downloaded from www.Manualslib.com manuals search engine



CD PLAYING

Repeat play → B
Press REPEAT ONE/ALL repeatedly to select repeat play as follows.

ⓐ one track repeat play
↓
ⓑ all track repeat play
↓
ⓒ no repeat play (normal play)

Downloaded from www.Manualslib.com manuals search engine
